| Question(s) & Answer | <p>18. REGARDING TOTAL LAND AREA: According to provided digital survey, the Total land area has found 1,51,828.02sq.ft. In the project brief (ANNEXURE:2) the proposed land area has mentioned 1,51,502.04 sq.ft, Which one will be the specific land area, to be considered during FAR & other calculations for this project?</p> <p>- According to provided digital survey drawing. Please follow the Revised FAR Chart with Guidelines and program list.</p> <p>19. REGARDING THE HEIGHT LIMITATIONS: What will be the building height restriction, according to the CAAB?</p> <p>- Find the answer from QUESTION NO. 6</p> <p>20. REGARDING THE CALCULATIONS FOR RETAINED BUILDING? How the calculation of the existing building will be considered in this project? We have visited the site, found the 16-storied building which is supposed to be retained, but, individual floors are not in the same size.</p> <p>a) What is the total built area of the retained building? - Find the answer from QUESTION NO. 9</p> <p>b) What is the total number of parking in the retained 16 storied building? - Please find the attachment</p> <p>c) Individual floor plans of the retained building are required, to identify the lobby, staircases, lift, parking, and entry/ exit locations, which will be essential for designing the overall master plan of this project. - Find the answer from QUESTION NO. 10</p> <p>21. REGARDING INTERNAL ROAD WIDTH AND DRIVE WAY: Internal road: 8m both way Internal drive way: 6m both way Which one should be considered? -- Both (Purpose/Character of internal road and drive way is different)</p> <p>22. PHYSICAL CONNECTIONS BETWEEN THE RETAINED 16 STORIED BUILDING & THE PROPOSED RENTABLE TOWER: If there any requirement of physical connections between the retained building and the proposed rentable tower? - Consider Ground floor connection</p> | | | | | | | | | | | | |

| | |
|--|---|
| | <p>23. VENTILATION: Is there any preconceived requirement of natural Ventilation/ individual air conditioning / central air conditioning?</p> <p>- According to Project Brief (Annexure-01). Except the area mentioned on annex-01 there should be the provision to support AC but not Central.</p> |
|--|---|

| Question(s) & Answer | <p>24. Please confirm the nature of the “TINESH GROUND” in survey map and whether if it is included in the design area. –This is existing “TENNIS GROUND”. Yes, It is included in the design area.</p> <p>25. Kindly confirm that the land area which can be utilized for design of the project is the whole site except 16 storied IEB BHABAN (if not please provide the restricted areas or a CAD drawing showing the actual designable area in the site). -- Utilize the whole site except 16 storied IEB BHABAN (as per Imarot Nirman Bidhimala-2008 & follow the given guideline)</p> <p>26. Are the consultants free to re-configure the internal road network? Please state if there is any issues to consider road network other than the standard rules and regulation. - Designers Choice</p> <p>27. Please specify, if client has any specific requirement for, any relation (e.g. distance, spatial connection etc.) between the building /design to be proposed and building to be retained (16 storied IEB BHABAN) or if it is up to the consultants to decide? - Client has no specific requirement.</p> <p>28. Kindly state if there is any consideration to be made for the existing trees on the site or if it is up to the consultants to decide whether to keep/ remove/ relocate/ replace these. -- Though it is designer’s choice but it is always appreciable to keep/ relocate/ replace existing trees rather than remove.</p> <p>29. Please confirm the list documents to be submitted along with the design sheet and model are following-</p> <ol style="list-style-type: none"> a. Report (as per “Project Brief”) in an individual envelope (provided with reg. confirmation mail) b. Declaration form (provided in IAB website) in another individual envelope (provided with reg. confirmation mail / within the declaration form) c. Financial Proposal (provided with reg. confirmation mail) in another individual envelope (provided with reg. confirmation | | | | | | | | | | | | |

mail)

Or can we place them in a single envelope?

-- According to project brief , all in separate envelope.

30. Please specify if there is any restriction on the size of these envelopes other than the documents sizes which is A4.
-- According to provided envelopes (Any changes rather than project brief/competition guideline may cancel your submission)
31. If it is possible please omit the CAD file format in the submission of the soft copy. Pdf format documents should suffice to utilize the entries for any publication or documentation by IAB and IEB (client) but CAD format is too easy to get “misused” while in the process of such publication or documentation by ill-intended or inexperienced person.
-- According to submission requirement in project brief (Any changes rather than project brief/competition guideline may cancel your submission) Please follow the Brief.
32. Kindly clarify the CAD format (for Soft Copy Submission), to our best knowledge CAD (Computer Aided Design) is a means of drawing which can range, conventionally, from dwg, dxf, rvt, dwf, dwfx, etc. format (technically drawing in PDF is CAD too) and unconventionally it could be ai, cdr, skp, etc. Are the consultants free to choose the format or the client have any specific software requirement to view them?
-- According to submission requirement in project brief – (CAD=DWG)
33. In the Project Brief: Annexure 01, Commercial Space- office floor area is limited only up to 15,000 sq. ft. per floor; but on the Space Requirement chart its 15,000-20,000 sq. ft. Please confirm the value.
– Find the answer from QUESTION NO. 4
34. Do the consultants have to follow the exact program area provided in the Space Requirement chart, or is it flexible?
– According to space requirement chart but Participant may add or reduce 5-10 % of space requirements.
35. The following is the queries regarding the cell data inside the Space Requirement Chart-
- d. Summation of the program under Multipurpose Hall is 39,000 sft, But summation the given value is 250 sft less (10,000+15,000 + 6,000+7,750 = 38,750). Please confirm the value.
-- 38750sft
